A DAY IN THE LIFE OF STUDENT TECHNOLOGY-USE

Depending on the subject(s) at hand, students frequently utilize various software and platforms for their classes, such as Google Classroom, NearPod, Lexia, and IXL.

Teacher Spotlight: Mr. A. Smith

Mr. Smith's Math class is off to an excellent start! "Students have had the opportunity to dive deep into learning new technologies and platforms, and have had the chance to discuss what it means to be a part of the WGPCS Wolfpack! Distance learning may not always be easy, but the patience and kindness that our Global 7th graders have shown thus far gives me confidence that it's going to be a great year!"

How has virtual learning been for our Wolfpack?

Here's what our students had to say:

"Fun"

"A new experience for me"

"I like the interactive activities like virtual tours and drawing"

"Challenging but exciting"

"Glad to get the help I need when I'm having trouble with technology"

"Better than in-person classes!"
